

## FITTING INSTRUCTIONS

Part Number - ICW500010

### Transmission brake assembly adjuster setscrew replacement for Discovery, Defender (all models), Range Rover Classic & Range Rover P38A

When replacing the brake shoes **always** fit the new adjuster setscrew included with the shoe set. **Do not refit the original adjuster setscrew** as the thread locking patch will have been broken during de-adjustment. If re-used, it would create a loose fit condition within the adjuster wedge.

**Warning** - Accessories which are not properly fitted can be dangerous. Read the instructions carefully prior to fitting. Whilst fitting comply with the instructions at all times. If in doubt contact your nearest Land Rover dealer.

#### Disclaimer

These fitting instructions are intended for general guidance only. No responsibility will be accepted for damage to persons, property, equipment or vehicles caused during or arising from the fitment or using of this product. Fitting this item to your vehicle may constitute a vehicle modification and therefore we strongly recommend that you check the product complies with local laws and legislation and always inform the vehicle's insurance company accordingly.
